**HRG Deductible Policy**

Please be advised that patient insurance deductibles are due prior to scheduling procedures. A deductible is an amount designated by your insurance plan and represents the amount the patient is responsible for before the insurance plan will pay towards your claims.

If you have not met your deductible, you will be required to pay the allowable amount designated by your insurance plan for your procedure before we can schedule. If your deductible is less than the allowable, the deductible in full is due. You may still receive a bill for additional coinsurance and/or co-pays depending on how your insurance plan processes the claim.

In the event that your responsibility is less than what was collected, you will receive a refund for any overpayment.

We are happy to provide any necessary procedure and diagnosis codes so that you may verify with your plan that the procedure will be applied to your deductible. Our billing department is always available to answer any questions you may have.
